

HIGH DEFINITION GOLF™

GOLF COURSE CLUBHOUSES

BOOST REVENUE, MEMBERSHIP AND EXCITEMENT THE HIGH DEFINITION GOLF™ ADVANTAGE

- Utilizes advanced computer vision technology to provide the most comprehensive and precise shot analysis in the industry
- Looks and plays like real golf – the only thing more realistic is the course itself
- Provides instant feedback and detailed analysis after every swing – allowing players to quickly improve their shots
- Fully integrated professional tools for golf instruction and club fitting – all operate seamlessly (plug-and-play) from one computer
- Train and practice on an extensive selection of world famous championship golf courses, driving ranges, chipping/putting greens
- Generate revenue or offer as a free amenity to members – rent at \$30 or \$40/hr or offer memberships for multiple months
- Internet connectivity allows you to share, video files, lessons, equipment information as well as play in online tournaments and leagues
- Generate excitement with “Closest-to-pin” and “Longest drive” competitions
- Allow your members to play golf regardless of the weather or time-of-day
- Easy-to-use – no need to fiddle with complex systems
- Software Ad Kit – promote upcoming events and “specials”
- Easy to install – no need for construction or renovation of your current facilities
- HD Golf™ system can also be used as an HDTV compatible, surround sound theater for presentations, sporting events and movies

“THE WORLD’S MOST AMAZING GOLF SIMULATOR”

HD Golf™ Club Fitting

BENEFIT FROM THE WIDE APPEAL OF HIGH DEFINITION GOLF™

- Provide extra incentive for members to stay in the clubhouse
- Enhance food and beverage sales
- Offer a teaching environment that will engage your members and make them excited about training
- Allows members to practice/play golf regardless of weather or time of day
- Increase overall club membership
- Host exciting events including: “Closest-to-pin” and “Longest drive” contests and watch movies and sporting events in High Definition with Dolby surround sound
- Unique capability to feature your golf course – high quality, interactive promotion of all your golf properties

INTEGRATED SOFTWARE & ACCESSORIES:

- Professional tools and accessories including: video swing analysis, swing dynamics and weight transfer/balance analysis as well as precision club fitting and equipment comparison
- All are seamlessly integrated (“plug & play”), easy-to-use, and operate from a single computer and touch screen interface
- Exciting online tournament and league play

EASY-TO-USE:

- Very easy to operate via touchscreen – as easy to use as an ATM

SUPERIOR RELIABILITY:

- HD Golf™ simulators utilize only high quality, business/industrial grade components
- HD Golf™ simulators are famous for reliability, with the most robust, field proven computer vision based ball/club tracking in the industry and will continue to operate at 100% efficiency when you need them most
- Software updates and remote diagnostics via Internet at the push of a button
- Virtually maintenance-free

ADVANCED COMPUTER VISION BALL & CLUB TRACKING:

- The most advanced ball and club tracking from the company that pioneered computer vision technology in the golf simulator industry
- HD Golf™ simulators make more measurements, more accurately than any other simulator – by far (e.g. club face angle at impact +/- 0.1°)
- Allows golfers to play shots the same way they would on the real course

EXPERIENCE THE REALISM:

- Our revolutionary image processing software combines high resolution digital images, satellite data and geophysical data into 3D models to produce a totally realistic indoor golf experience
- HD Golf™ looks and plays like you are on the actual golf course - competitive systems use conventional 3D graphics that look like kids’ video games

*The system of choice for
PGA Tour Pros,
Top Golf Instructors &
Equipment Manufacturers*
